

# cubicoil

300mm fan version (medium temperature) shown

Evaporators are available in  $\varnothing 300\text{mm}$ ,  $\varnothing 350\text{mm}$ ,  $\varnothing 500\text{mm}$  and  $\varnothing 630\text{mm}$  fan configurations and are designed for optimal air movement with energy saving, external rotor axial fan motors.

Cubicoil evaporators include a fitted expansion device, solenoid valve and P-trap as required to simplify installation on site. Evaporators are fitted with 430 stainless steel claddings.

Air, electric, and hot-gas defrost options are available.

Cubicoil International is committed to ensuring its products are designed, manufactured and assembled to operate in the most energy-efficient manner possible, using the latest available technologies and design methodologies in keeping with best industry practice
